CHAVE DE RESPOSTAS

Question 1:

What is the main argument of the passage?

Answer:
Artificial intelligence has fundamentally changed the role of photographs as evidence of reality.

Question 2:

According to the author, which factor contributes to the "perfect storm" leading to the collapse of trust in images?

Answer:
The combination of artificial intelligence technology, social media dissemination, and personalized algorithm-driven information feeds.

Question 3:

The word "unmoored" in the sentence

"the photograph… is now unmoored — infinitely pliable"
is closest in meaning to:

Answer:
Disconnected.

Question 4:

What can be inferred about the author's view of the future?

Answer:
Humans may need to redefine how trust and truth are established in the absence of photographic certainty.

Question 5:

Why does the author discuss human societies before photography and writing?

Answer:
To suggest that humanity has previously existed without fixed visual proof of truth, relying instead on social trust and shared interpretation.
